

CB1S plug and play shift lamp

Thank you for your wise purchase of one of the world's first OBDII plug and play shift lamps. Please be aware, as stated in all marketing material, this is suitable for most cars from 2008 onwards. The temp warning, which is displayed via dimly lighting the center yellow LED, can be permanently or temporarily (e.g. this trip only) disable should you desire. It is triggered at 100degC (212degF).
